# **B** (Pigmented)

P304+340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P314 - Get medical attention/advice if you feel unwell.

# **GHS Storage and Disposal Phrases**

P501 - Dispose of contents/container to local, state, and federal authority requirements.

# **Potential Health Effects (Acute and Chronic)**

Corrosive to eyes and skin. Causes burns. May be harmful if swallowed. Irritating to respiratory system. Do not breathe vapor or mist. Do not ingest. Do not get in eyes or on skin or clothing. Use only with adequate ventilation. Keep container tightly closed and sealed until ready for use. Wash thoroughly after handling. Aspiration hazard if swallowed. Can enter lungs and cause damage.

### Inhalation

Corrosive to respiratory tract. May cause respiratory sensitization.

# **Skin Contact**

Contact with substance may cause severe burns to skin. Symptoms may include redness, edema, drying, defatting and cracking of the skin.

#### **Eye Contact**

Corrosive/irritation to eyes. Causes eye burns.

### Ingestion

Harmful if swallowed. This product may produce corrosive damage to the gastrointestinal tract if it is swallowed. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract.

# **Recommended Exposure Limits**

Not established.

# Medical Conditions Generally Aggravated By Exposure

Skin disorders, Respiratory disorders, Eye disorders, Skin Allergies.

### **OSHA Regulatory Status:**

This material is classified as hazardous under OSHA regulations.

3. Composition/Information on Ingredients					
Hazardous Components (Chemical Name)	CAS #	Concentration			
1. Isophoronediamine	2855-13-2	70 - 85 %			
2. 1,5-Pentanediamine, 2-methyl-	15520-10-2	1.0 - 10 %			
3. Phenol, 4-nonyl-, branched	84852-15-3	1.0 - 10 %			
4. Benzenemethanol	100-51-6	1.0 - 5.0 %			
	4. First	Aid Measures			

#### **Emergency and First Aid Procedures**

#### In Case of Inhalation

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If experiencing respiratory symptoms: Get medical attention immediately.

# In Case of Skin Contact

In case of contact, immediately wash skin with soap and copious amounts of water. Remove contaminated clothing and shoes. Get medical attention if irritation develops or persists.

# In Case of Eye Contact

In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Get medical attention immediately.

# In Case of Ingestion

If swallowed, wash out mouth with water provided person is conscious. Do not induce vomiting. Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Get medical attention immediately.

Neoprene gloves Safety glasses, or goggles. Impervious clothing. Chemical resistant boots

# SAFETY DATA SHEET Epoxy.com 630 100% Solids Novolac Hardener

Part

# **Respiratory Equipment (Specify Type)**

Normally when good engineering controls are used, no respiratory protection is needed. However, if cured product is abraded by sanding or grinding use a NIOSH approved air-purifying respirator. Where risk assessment shows air-purifying respirators are appropriate use a dust mask type N95 (US) or type P1 (EN 143) respirator. A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators.

**B** (Pigmented)

#### **Eye Protection**

Safety glasses, or goggles.

#### **Protective Gloves**

Nitrile rubber and Neoprene are recommended.

#### **Other Protective Clothing**

Where splashing is possible, full chemically resistant protective clothing, safety glasses or face shield and boots are required.

#### **Engineering Controls (Ventilation etc.)**

Good general ventilation should be sufficient to control airborne levels. Safety shower and eye bath.

#### Work/Hygienic/Maintenance Practices

Wash contaminated clothing before reuse. Discard contaminated shoes. Wash thoroughly after handling.

#### **Environmental Exposure Controls**

Avoid runoff into storm sewers and ditches which lead to waterways.

Stable [X]

**10. Stability and Reactivity** 

#### Stability:

Reactivity

Avoid: acids, alkalis, oxidizing agents.

**Conditions To Avoid - Instability** 

Extreme temperatures.

#### Incompatibility - Materials To Avoid

Avoid strong acids, bases, and oxidizing agents.

#### **Hazardous Decomposition Or Byproducts**

Thermal decomposition may produce smoke, carbon monoxide, carbon dioxide, and phenolics.

1

Unstable [ ]

Possibility of Hazardous	Will occur [
Polymerization:	

# Conditions To Avoid - Hazardous Reactions

Will not undergo hazardous polymerization in normal storage conditions.

# **11. Toxicological Information**

Will not occur [X]

#### **Toxicological Information**

May cause sensitization by skin contact.

#### **Chronic Toxicological Effects**

Skin sensitization.

#### Irritation or Corrosion

Corrosive! Damages skin and eyes.

#### Symptoms related to Toxicological Characteristics

Skin: Contact with substance may cause severe burns to skin. Symptoms may include redness, edema, drying, defatting and cracking of the skin.

Eyes: Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva. Permanent eye damage including blindness could result.

Inhalation: Inhalation of vapors/fumes causes respiratory irritation with throat discomfort, coughing or difficulty breathing.

# 12. Ecological Information

#### **General Ecological Information**

Avoid release to the environment. Do not empty into drains. May be hazardous to the environment if released in large quantities.

#### Results of PBT and vPvB assessment

No data available.

#### **Persistence and Degradability**

Not readily biodegradable.

#### **Bioaccumulative Potential**

No data available.

#### **Mobility in Soil**

not reported, unknown.

# **13. Disposal Considerations**

### Waste Disposal Method

Incinerate or dispose of unused material, residues and containers in a licensed facility in accordance with all applicable local, state and federal regulations. Do not discharge substance/product into sewage system.
